

Corona Extra presents **CLOUD CONTROL** AT NEWPORT ARMS HOTEL, SATURDAY 5TH APRIL, 3:30PM

Corona Extra is stoked to present Cloud Control's first ever acoustic tour this March / April and will be playing in **Sydney's Famous Newport Arms beergarden** on Saturday 5th April from 3:30pm. Plus punters can also catch Voodoo Sons.

Hot off the national Laneway Festival tour, Cloud Control will play 35+ shows taking in Western Australia, Victoria, New South Wales and Queensland. All shows will be acoustic and free entry at Corona's favourite bars across the country.

Cloud Control burst onto the music landscape in Australia and abroad in 2010 with their debut album *Bliss Release*, winning them an avalanche of praise, leagues of fans, ARIA Award nominations and the 2011 Australian Music Prize.

After the huge success of that first album, Cloud Control moved to the UK, took stock, set up in a cave in the Kentish countryside and started to work on their new album with Barny Barnicott (The Arctic Monkeys, Kasabian, Spiritualized).

Released last year, *Dream Cave* is filled with classic songwriting and melody, and sees the band cut loose from their roots and embrace a spirit of experimentation. Praise for this exploration has been rolling in by the bucket load, with *Dream Cave* recently winning the FBi Radio SMAC Award for Record Of The Year and being shortlisted for the Australian Music Prize.

To accompany all this great news and the acoustic tour announcement, Cloud Control is releasing ***Dream Cave Unplugged*** (available via iTunes [here](#)) a gorgeous acoustic recording of the band's second album.

Dream Cave Unplugged breathes new life into the original release, stripping it back and emphasizing the band's truest strengths; their outstanding songwriting and superb harmonies.

Having played a big national tour for *Dream Cave* last year, Cloud Control is consistently on the bill for tastemaker festivals at home and abroad, playing Laneway, Splendour In The Grass, Field Day (UK) and a sold out show at Vivid Festival to name just a few.

Currently on tour in the UK and Europe, Cloud Control's stripped back, lo-fi tour for Corona Extra will take you straight to where you'd rather be!
